OVERVIEW

We became a partnership in 1994 to create unique classic leather and textile items. We travel and display our products at horse expos, art shows, and western events large and small throughout the west. Reaching back to our family's Montana, Idaho and North Carolina roots, we bring traditional leather detailing to everything we make. Browse our website to view assorted styles of handbags, bracelets, guitar straps and a wee bit more. Subscribe to our email list for updates on our events and new products in the making.
