I can't tell you how much I like this product! I was able to apply it myself, without assistance, today and harrow it in both the indoor and outdoor arenas. It's like flipping a switch on dust. It is most important to me that the arenas be clean and free from dust, for horses, and riders. We are also right against an organic garden, and a tourist resort, so dust and contaminants are a big concern. We are thrilled with the results we get from ArenaKleen.
