OVERVIEW

Growin' up doodlin' on any spare scrap of paper, Anita was encouraged from an early age to develop her natural scribblin' tendencies into a career in art. Anita works from her studio in BC, focused on her fine art and illustration work. Recognized by it's lushness of colour and bold sense of drama, subjects for her art are varied but her love of horses, nature and the western life remain a constant in her art. *Art & Artists>Drawing|Art & Artists>Painting
