#### OVERVIEW

Bayview Farm & Garden took over from our friend, Bill Lanning, of Bill's Feed & Tack in 1995. We also maintain a modern edge with the newest and best products for pets and livestock. We introduced to the community the first organic livestock feed and are a proud supplier of Scratch 'n Peck feeds. Our goal is to bring you the best products from small, family run businesses who share our ideals of natural and sustainable practices. Feed|Farm Supplies
