#### OVERVIEW

As a privately owned equestrian boarding facility, our goal is to offer high quality horse care, outstanding training and instructional programs in a safe, clean and supportive environment. Our facility is designed to accommodate dressage and event riders plus horses of all ages and riding levels. With a passion for coaching and teaching, accomplished FEI 4- Star Event rider and Prix St George dressage rider, Mary Burke creates a positive learning environment. In addition, her expanded knowledge base as a Physical Therapist , brings to her inspirational and motivational coaching program a uniquely trained eye in human kinesiology, physiology and anatomy. With her understanding of how a horse thinks and moves, combined with her Physical Therapy expertise in human movement patterns Mary decodes the "art of riding" for competitive and non competitive riders of all levels. View our website for additional images and information. We look forward to hearing from...
