OVERVIEW

CCMSAR is located in Clark County, Washington. We work in coordination with the Clark County Sheriffs Department and surrounding counties to locate and rescue missing persons. The commitment involved in SAR is vital to its success in the field. There are 12+ trainings a year where we improve our horsemanship, learn GPS navigation, map and compass, new search techniques and many other things. The volunteers in this group give their time and resources to be a part of Clark County's emergency response effort and are willing, able, and trained to respond to a call 24 hours a day, 7 days a week, 365 days a year! To serve those in need on search missions, public relations and to always train to improve ourselves and our horses. Would you like to join our team or donate to our cause?
