OVERVIEW

I offer a variety of options for your horses. Whether you wish to have your horse barefoot, shod or in a boot or glue-on shoes - I have been schooled in all of these options and believe they all can have a fit for our equine friends. Whenever considering any of these options, we must always consider: - Performance expectations of the horse - The environment we live in (especially in the Pacific Northwest!) - Lameness issues we may need to address I am a responsible farrier that is a good communicator and always shows up as I am scheduled. I cover most areas from Carnation through Stanwood and will consider longer distances depending on the amount of work there is and how well behaved the horses are.
