#### **OVERVIEW**

The portable corral panels are light and simple to load and unload. Easy for anyone. Simple hinge sleeves and full-length stainless steel pins make child's play of setting up a freestanding portable corral or stall on any terrain. And any one of the Corrals 2 Go! system portable corral panels can be a gate. Arrive at camp, set up quick and enjoy a cold one—with your horses safely corralled—and relax. As a fully freestanding portable corral design, you'll never have to pen your animals against your trailer. This is safer—horses can't get tangled up under it as with an overhead tie system—not only for the horses, it prevents damage to the trailer. Not to mention eliminating the annoyance of a horse jerking on the trailer all night. And you'll rest easy knowing your horse is contained and won't get out (as can with an electrical fence system). Built to last...
