#### OVERVIEW

Hello and Namaste! I have over 10 years' experience in animal communication, supported by a PhD in Psychology with a concentration in consciousness and spirituality. My dissertation research explored animal communication with 50 canines and their guardians, while my most recent research was with therapy horses who work with PTSD-diagnosed military veterans. I am Executive Director for the Academy for the Advancement of Post Materialist Sciences at [aapsglobal.com](http://aapsglobal.com), Honorary Website Manager for the Society for Psychical Research in London at [spr.ac.uk](http://spr.ac.uk), a Reiki Master, and Healing Touch for Animals Practitioner. I'd love to speak to your animals, feel free to reach out to me!
