[Weatherford, Texas](#)

**OVERVIEW**

Dennis Moreland Tack offers handmade training, working and show equipment for western riders in all disciplines; particularly cutting, cow horse, reining, and ranch versatility. Since starting out in 1976, Dennis motto has been function over fashion; "my tack is beautifully crafted and exquisite to look at, but the function of each piece is what comes first". Over the years, Dennis has been approached by riders and trainers alike, all wanting quality tack from an experienced craftsman. That his tack is still working well for them, after years of hard use, is the best compliment Dennis can get.
