OVERVIEW

Diamond W Contracting builds high-performance equestrian arenas engineered for real-world conditions - arenas that stay rideable through heavy rain, heat, and daily use without standing water, unstable footing, or premature failure. Led by Austin Wood (20+ years of arena construction, earthwork, drainage, and erosion-control expertise), we specialize in Signature Outdoor Arenas with high-capacity vertical drainage, precision base construction, and footing tailored to your discipline. Services include outdoor and indoor arena construction, footing installation, arena restoration, and routine maintenance across the Southeast and Mid-Atlantic. Arenas Built Right. Built Once. Serving: Virginia, South Carolina, North Carolina, Kentucky, Ohio, Georgia, Florida, Arkansas, Indiana, Maryland.
