OVERVIEW

At Equine Harmony Connection we practice reward based training and follow the ethics of humane hierarchy using the least intrusive, effective principle. Our constructional training approach utilizes modern positive reinforcement science based horsemanship methods. We strive to be a role model in promoting +R training for the welfare of the horse. Reward based training benefits gaited horses, donkeys, stallions, minis, and those with severe behavior issues and mental trauma. -Services offered- Clinics and private lessons in Corvallis, Oregon Mobile evaluation service - Willamette Valley, Oregon Tutorial step by step video library Video analysis Phone consultation Demonstrations for groups/ clubs
