OVERVIEW

Ecovet is an entirely new type of fly spray for horses – and it works! Tested/endorsed by veterinarians – a veterinarian-owned company Real alternative to toxic pesticides like pyrethrins Safe for horses and individuals applying it Confuses an insect's normal directional ability so it can't locate horse as its next victim Extremely effective: Flies will not land on a horse thanks to the Ecovet barrier! Check out our new scent! Shop: www.eco-vet.com Fly|Pest Control
