#### OVERVIEW

Equine Wellness Services is a holistic team approach to equine health. We specialize in barefoot trimming with patience and respect for the horse, whether a positive first trim for a foal or an older, arthritic horse needing a gentle hand. We are experienced with laminitis corrective trimming and transitioning horses out of shoes. We do laboratory hay analysis with diet balancing. We perform fecal egg counts to insure safer deworming protocols. We fit and sell a variety of hoof boots. Check out our video to see the time lapse changed on the hoof. Client comments say it best. I would highly recommend Bob to anyone for their horse's trims. He's very calm and caring with the horses, whether it's a young horse who just can't stay still or an older horse who can't keep their hooves up for very long. He will take however long it takes to get the...
