#### OVERVIEW

Estes Park Outfitters offers one of the most authentic backcountry experiences in all of Colorado. Located just a few miles outside legendary Estes Park, EPO operates on private acreage inside 33,000 acres of Roosevelt National Forrest. Our off-the-grid lodge utilizes solar power and spring-fed water, with the convenience of satellite TV, reliable internet, and good cellular service. Lodge guests will have uninterrupted access to a maintained public trail system for endless mountain biking, horseback riding, snowshoeing, motorcycling and hiking where you may not see another person all day. We even offer overnight corrals and BYOH (Bring Your Own Horse) accommodations. Our 5-star reviews do the talking for us! An off-the-grid experience that is out of this world.
