OVERVIEW

Hackney horses are magnificent as carriage animals, but in past years have been on the endangered species list for horse breeds. Now, with the growing interest in carriage driving, Hackney horses are being sought out for their glamour and presence as singles, pairs, and fours. Admired for their versatility, their numbers are increasing. American broodmare bands are once again in production. Hackney ponies, a small version of the Hackney horse, have been prized as show ponies and childhood companions.Assoc|Breed Registries
