OVERVIEW

The American Haflinger Registry (AHR), which represents over 11,000 North American Haflinger owners and over 30,000 Haflingers, was formed in 1998 from the combined memberships of the Haflinger Association of America (HAA) and the Haflinger Registry of North America (HRNA). By majority vote of both memberships, HAA and HRNA were dissolved to create a single unified registry for North American Haflingers.Assoc|Breed Registries
