#### OVERVIEW

Providing mobile trimming service for your pig, goat, alpaca, and more. "Sarah was absolutely fabulous and professional and caring for my two piggy babies. i was nervous at first as all Moms are but man she took such great care of them as if they were her own. Plus she's a pretty cool chic too. Everyone who has a pig should trust her with their hoof and tusk care. She was able to handle all their needs without anesthetics and I swear my Rosie who doesn't like people much came up and thanked her afterwards. She really is the pig whisperer." - Jamie B.Farrier|Trimmer
