#### OVERVIEW

Everyone needs a blue roan with that Wrangler-blue color and willing-to-go attitude! I've used him for everything in the last year—from wrangling horses to night calving, branding, or simply checking things around the ranch on a Sunday afternoon. There's nothing he loves more than heading down the trail with his ears pricked forward, just enjoying the view. There have been days I saddled him at 4:30 a.m. and went about ranch work, and he's always been ready. He's never offered to buck, even with weeks off or on cold, frosty mornings—he always comes back the same ol' Blue Boy. He's crossed rivers, cricks, bog holes, mountains, and any other kind of country you can think of. He never fails and is always reliable and ready for whatever I point him at. Don't miss out on ol' Blue Boy. Ridden by Kurt McNabb. FMI Ken McNabb at 307-254-7260 | [mcnabbdeedee@gmail.com](mailto:mcnabbdeedee@gmail.com) Hip 10:...
