OVERVIEW

Titled South Steens, green broke to ride spring of 2024 by an 11 yr old and has worked under harness since last summer. She has a great work ethic and seems to like the work hauling logs down from the woods, pulling brush piles, dragging the arena, and miscellaneous work. I have videos on youtube. She has a wide flat back and should be a dream to hop on and take a bareback ride. I put a solid foundation of ground manners on my horses. I've been training wild mustangs since 1983. I am in Glendale Oregon. NO texting. Calls only.
