OVERVIEW

Keith brings over 30 years of experience in equine hoof care. He looks forward to participating in a variety of continued educational venues throughout the year to broaden his scope of knowledge, skills and applications. Keith is energized to learn from people who are the top of their field and who exchange ideas and experiences with other professionals. His client comments say it best. He keeps my ponies happy and sound and I SO appreciate him! - Julie D. Keith was a recommendation from friends when my previous farrier moved out of state. He is easy to schedule appointments with, arrives on time, very knowledgeable in his trade, and kind to the horses. He took the time to understand the use of my horses, how they were built, and the type of hooves they have to asses the best fit type of shoe or trim. I enjoy every visit…
