OVERVIEW

Layer for comfort; stay protected for the ride. The mission of horsebackridingvests.com is to provide quality horseback riding vests to ensure safety, peace of mind and comfort for equestrians through thought out research and commitment to the customer. Anything can happen when you ride; be prepared. Get the lightest protection without restriction. HyperKewl evaporative cooling vests beat the heat. The MTR by Casco is ASTM certifed and the eventers vest choice for Maximum Trauma Reduction. There are many colors to choose from. Hit-Air inflatable vests add quick air protection. They are super light and open; they only activate when needed, during a fall. Replacement Hit-Air CO2 cartridges are available.
