OVERVIEW

"I am a horse listener, Horses are honest. I am honest, and so we connect heart to heart on the path to healing. What I do is simple-I listen. The horses will share their troubles with me if they feel they can trust me and if they sense their secrets are safe with me." My favorite horse quote is "The horse knows. He knows if you know. He knows if you don't know." Not all horses will let me in because they know, I know. None the less, I will "ALWAYS" try to help a horse in need even if I'm not certain of the outcome. It's just that simple.
