OVERVIEW

Offering reliable and professional farrier service. I use a common sense approach to do what is best for your horse. My focus is good horsemanship and doing what is best for your horse to encourage lasting soundness. I specialize in special needs horses, corrective shoeing, barefoot trims and traditional shoeing. Give me a call/text or facebook message and let's get your horse headed in the right direction. Client comments: "John is extremely professional, is easy to get a hold of, schedule with, etc. He shows up, cleans up, and is wonderful with the horses...even the young not as well behaved ones. He has made tremendous improvements to our horses hoof health." - K. BystromFarrier|Trimmer
