OVERVIEW

If we shopped around and bought from whatever mill had a surplus that week, our customers would never know what to expect. So we buy from the same mills, week in and week out, ensuring a dependable, consistent product you can always rely on. Our goal is to ship it fresh, usually the same day it's packed. We inspect and stand behind every load -- your guarantee of the very highest quality product. We also guarantee and stand behind our vow that what is printed on the bag is what is in the bag. If it says 12 cubic feet then there is 12 cubic feet in there. Give us a try and compare our product to what you are using now.
