OVERVIEW

Life Between The Ears | The World From a Saddle. Follow us from your favorite social media platform to travel throughout the world! The submitted photos take us to places of wonder, beauty, and dreams! A curated page of your favorite view: between the ears of a horse. For those of us who can't travel the world riding in all these beautiful places, we now bring you the first in an ever-growing collection of tiny little vacations in a box, by way of greeting cards, beginning with my own photos from beautiful Vashon Island, in the Pacific NW, and the several international collections. Join the email list to be notified when new collections become available, at the bottom of any page of the website: <http://www.lifebetweentheears.com> Ride On ^^ !
