**OVERVIEW**

LMF Feeds is dedicated to production of high quality horse feeds for horsemen in the Western and Southwestern United States. Who We Are Since 1981, LMF Feeds has been dedicated to providing high quality horse feeds for horsemen of the western United States. With cooperation of two independently owned product facilities, one in Spokane, WA and one in Keyes, CA. LMF produces feeds for all equine disciplines, with emphasis upon using only the finest ingredients, and by using more bio-available ingredients, along with concentration of key nutrients, LMF horse feeds can be fed at relatively low intake levels. Leading The Way LMF has led the way in producing feed formulas that account for the excellent quality of forages in the West, along with accounting for differences between alfalfa compared to grass forages in many formulas. A primary focus has and will continue to be providing true value to you the...
