OVERVIEW

Offering Horse Training including colt starting and refined training, riding lessons, boarding, equine sales, kids camps, and adult horsemanship clinics. All services are foundational horsemanship and advance to higher levels in both english and western disciplines. Our clients say it best: My 7 year old daughter attended Lucia's summer camp in August. She has been riding for a few years but she recently had a few bad experiences and I thought she might give up riding forever, but Lucia was amazing with her. One thing that I appreciated was that she was firm, but kind and encouraging at the same time. My daughter came home excited and so much more confident than before. She recently went to a horse show and placed 2nd out of 12 riders! We will definitely be attending next summers camp! - Sydney S.Instructor|Trainer
