#### OVERVIEW

The Mustang Ambassador Program engages our trained mustangs with people through various methods including summer youth riding and leadership programs, natural horsemanship clinics, military support events and group mind-fullness and healing sessions. MAP posts our events on the website ([map1.org](http://map1.org)) or we can potentially tailor programs to meet your group's goal and schedule. We can also host birthday parties and photo shoots! Let us know how we can help!
