OVERVIEW

Equissage pulse dramatically improves blood circulation, removes toxins, stimulates soft tissue and improves joint mobility - achieving optimal performance results. Maintaining your horse's health is vital no matter what discipline you practice. Your horse can be an integral part of your livelihood, your best friend or both. Therefore it is imperative they are in tip-top condition. Equissage is highly effective in treating sore shins, arthritic joints, ligament/tendon damage, bruised soles, pulled muscles, sore backs, stress, respiratory disease and lymphatic drainage.
