OVERVIEW

Our Slow Feeder Nets are built to be durable with 1-3/4" diamonds, easily maintained, washable if desired, will not rot over time, UV-resistant and above all they're cost effective and will SAVE YOU MONEY over the life of the nets. Each of our slow feeders are skillfully crafted utilizing strong steel welded rings, marine grade ropes and 1200# breaking strength thick braided Polyethylene Twine. Made in Washington - See our website for more information! Feeders | Slow Feeders
