#### OVERVIEW

The BCHW Peninsula Chapter is located on the beautiful Olympic Peninsula in Washington State and is a 501c3 non-profit organization. We are dedicated to the use and enjoyment of horses and other pack stock on America's trails and backcountry. We ensure that public lands remain open to recreational stock use, assist the various government and private agencies in maintaining the trails, and educate and practice wise use of our lands through Leave No Trace (LNT) principals. We are a volunteer service organization and while we often are not visible in the media or in the urban cultures, if you truly venture out to the trails of our federal and state lands; if you spend any time in the wilderness; we are there, packing supplies and tools, fighting invasive weeds, reconstructing trails and partnering with agency staff as well as with other fine volunteer groups. Members and Non Members are welcome...
