OVERVIEW

PermaBilt has been designing and building custom equine barn pole buildings and covered arenas for over 50 years. As experienced post-frame barn and covered arena builders, we use the latest engineering, the highest-quality materials, and fast construction to bring your vision to life. Our pole barns can include complete horse stalls, with or without grills, and fully finished tack rooms to fit your needs. Let one of our professional equine barn representatives help you with the design, permitting, and financing for your next barn or arena.
