OVERVIEW

NOTE: South Sound Critter Care is changing to Puget Sound Wildlife Care. South Sound Critter Care is the only licensed general wildlife center located in King County and is dedicated to the care, rehabilitation and release of orphaned and injured wildlife. SSCC treats an ever increasing number of animals with more than 2,400 animals projected for this year. SSCC rehabilitates over 130 wildlife species. SSCC also treats some exotic pets and domestic animals that have been released or escaped such as turtles. See our (under construction) website and Facebook page for additional information!
