OVERVIEW

The quickest & most simple application can be accessed here:

<https://animalregistration.org/quick-easy-app/> We represent members & horses from all over the US & Internationally. We are one of the fastest growing registries in the horse world today, receiving referrals from AQHA almost daily!! For AqHR, horses that are eligible for registration must have at least one parent registered with the American Quarter Horse Association or APHA. If your horse does NOT meet this simple requirement, you can still register ADNAR! The application process is more simple than you might think- just apply on our site! AqHR: <https://animalregistration.org/animal-services/american-half-quarter-horse-registry/registration/join-register/> ADNAR: <https://animalregistration.org/animal-services/american-dna-registry/horse-registration/> You're welcome to call, but, I promise, we've heard every wild story and unfortunate circumstance under the sun. Your horse CAN

BE REGISTERED. We're here to offer the opportunities when AQHA, APHA, ApHC, or any of the other purebred organizations are not an option or too costly. ONE TIME COUPON CODE: ARAhorsesource...
