OVERVIEW

A combination of elegance and dynamics. Introducing an exceptionally hard to find, functioning horse ranch on Bainbridge Island. It has been years since a property with such varied and unique amenities has been offered in our market. The owner reimagined this property with a devotion to local artisans and a homage to natural surroundings. The 9.36 acres, comprised of 3 tax parcels, includes an exquisite 2448 sf main house, equally fabulous 1000 sf accessory dwelling unit with attached 1 car garage plus large shop, homey caretaker's cottage, and studio building. Just steps from the main house awaits a 4-stall barn with tack room, hay storage, heated horse bathing station, and outdoor riding arena. The homeowner choreographed the complete restoration of this property using respected local expertise in both design and construction. The artful execution of this dream is inexhaustibly apparent. Extraordinary attention to detail is abundantly evident from the moment...
