OVERVIEW

Tucked into scenic Fern Bluff Valley, this 14.69-acre Monroe property was set up with horses in mind. An outdoor riding arena, a monitor-style barn with 4 to 5 stalls, rubber-matted aisles, automatic waterers, and a heated tack room sit alongside cross-fenced pasture. A 30x40 shop with a crane lift handles equipment and projects, with plenty of RV and trailer parking. The 4 bed, 2.5 bath home brings rustic-modern character with vaulted ceilings, skylights, timber accents, and a floor-to-ceiling stacked-stone fireplace. The main-floor primary suite opens to the deck, and the baths feature hammered copper sinks. Outside, mountain and territorial views, fruit trees, and garden space surround a creek with an illuminated footbridge, plus a timber pergola with fire pit for the end of the day. Quiet dead-end street, wired for a generator. Horse Features Outdoor riding arena Monitor-style barn with 4 to 5 stalls Rubber-matted aisles and automatic waterers Heated...
