OVERVIEW

This is an irreplaceable lifestyle property with newer custom construction, horse facilities, a huge shop, incredible garage space, mountain views and the freedom of country living—all without giving up the conveniences of being close to town. Some properties are just impossible to duplicate, and this is one of them. A truly special custom ranch home built in 2020 on 2.4+ acres, offering the space and privacy of country living while still being minutes from everything Littleton has to offer. As soon as you walk in, you can tell this home was thoughtfully designed and built with quality throughout. The heart of the home is this incredible kitchen with a 15' island, which was even featured in Kitchen & Bath magazine, opening to the spacious family and dining areas and filled with natural light and a 16' retractable patio door that opens to the sunroom. With just over 4,000 square feet…
