OVERVIEW

At ResqRanch, we provide a compassionate forever sanctuary and a path towards holistic healing for horses rescued from challenging pasts, including neglect, abuse, and high-risk environments. From discarded race horses to caged wild mustangs, we believe every horse deserves understanding, safety, and the chance to thrive for the rest of their lives. Our philosophy centers on the whole horse. We offer comprehensive physical care, attentive veterinary support, tailored nutrition, expert farrier work, fully integrated with a deep commitment to their behavioral and emotional well-being throughout their time here. Central to their ongoing care and enrichment is the dedicated use of positive reinforcement (+R) methods. This ethical, science-based approach allows us to build trust, gently address fear or trauma-related behaviors, help horses regain confidence, and ensure their daily interactions and management are built on cooperation and respect for their individual needs and choices. ResqRanch is committed to providing lifelong, specialized care...
