OVERVIEW

The Half American Saddlebred Registry of America was founded in 1971 by Roberta Nye Busch, who perceived a need for a recording organization when owners from other breeds bred mares to her American Saddlebred stallion, Flying Eagle Peavine 32802. After 25 years at the helm of the Registry, Busch requested that the American Saddlebred Horse Association become the administrator of the program. ASHA stepped into the role on July 15, 1996.
