OVERVIEW

Post-Frame and Pole Barn Builder since 1945 Welcome to Späne Buildings, where we've perfected the art of constructing post frame and pole barn buildings. For more videos, and images of some of our projects, visit our [Blog Page](#), or our [Videos Page](#). Since 1945, Späne has been constructing some of the finest horse arenas, private residences, commercial structures, barns and garages, throughout Skagit, Whatcom, Island, Snohomish, King, Pierce, and Thurston counties. At Späne, we build more than structures; we build lifelong relationships with our customers. Our exceptional craftsmen have built throughout the United States hundreds of such structures, backed by our 100% workmanship guarantee. We were recognized as the "2011 Builder of the Year" by our peers with the Skagit and Island Counties Builders Association (SICBA); a proud achievement in the Späne family. When considering your next project, look no further than Späne Buildings, the Northwest's most trusted and experienced builder of post-frame buildings. [Click here to view our catalog.](#) We

look forward...
