OVERVIEW

The Tami Semas Barrel Saddle enables the rider to stabilize their weight in their feet which lets the rider stay balanced and out of the horse's way throughout the entire run. It's very easy for the rider to slide up to the swells and sit deep. The cantle is sloped so it will never hit the rider, but allows the rider to use it to stay centered. Check out our website for more details. [Tack Custom|Repair|Supplies>Custom](#)
