OVERVIEW

The Dragster is one of seven arena maintenance products designed and manufactured by Conterra Arena Rakes and Groomers. Conterra's Arena Dragster is designed to pull behind ATVs, UTVs, Garden and Compact Tractors. They feature our revolutionary Depth Control System that allows you to easily and consistently control your arena depth over the entire surface. Combined with other features on the Dragster you will have a consistent level area. See our website and Facebook page for additional information. Arena & Related - Const|Repair|Acc.
