OVERVIEW

Here at The Son and Reins Ranch, we offer equine-assisted, experiential learning sessions for people who are struggling for any reason. It is very different than traditional talk therapy. Our sessions are hands-on and interactive, engaging all your senses in real time. Therefore, people often experience immediate results that bring specific and personal healing and hope, no matter what mental, emotional or relational challenge you're facing. Customized sessions are available for teens, adults, couples, families, and groups of any kind.* *no horse experience necessary
