OVERVIEW

Triple Heart Ranch & Training Centre, Inc has moved back to our wonderful facility located in Eastern Washington. After five very successful years training out of the Star Valley Farm facility, we have decided that it is time to return to our "grass roots". Our past success's here at Triple Heart Ranch were stellar and we look forward to continuing that same endeavour. The facility itself is continuing to grow and we are very excited about some of the new additions, such as a hot water washrack, new additional show barn to accommodate more horses and foaling stalls and the expansion of the outdoor arena to accommodate the larger ponies. We hope you will look over our website and see some of our accomplishments and offer us the chance to discuss your goals. We welcome visitors and always have the coffee on.Instructor|Trainer
