### **OVERVIEW**

VolunteeRanch is a platform built for horse and cattle ranches across the U.S. and Canada looking for an extra hand with daily ranch life. Ranches can connect directly with motivated volunteers registered on the platform who are interested in helping with tasks such as horse and cattle care, general chores, maintenance, fencing, feeding, and other work around the ranch. Volunteers can contact the ranches they are interested in directly and message them in a simple, transparent way. It also gives volunteers the chance to experience authentic ranch life, contribute their riding, farming, or livestock experience, learn through hands-on work, and connect with the cowboy lifestyle in a real working ranch environment. Around 80% of the volunteers have an intermediate to advanced level of horseback riding or livestock experience. Ranches usually receive a message from a volunteer within 72 hours. Registration is free and only takes about 3 minutes. Website: <https://www.volunteeranch.com>
