OVERVIEW

This first generation farming operation focused on local economy and sustainable living, started in the wedding and event venue business only very recently with an offbeat wedding. In 2009, co-owner John Beal, a professional landscaping contractor landscaped an aging tree farm to accommodate his sister's medieval-themed wedding. After he hosted that, he was encouraged to make it a full-fledged business and 2010 became the first season of weddings at Woodland Meadow Farms.Wedding|Group Venues|Services
