OVERVIEW

Welcome. All Wounded Horse Designs are created in the high desert of Southwestern Idaho where the expansive landscape meets the sky. Designs include everything from fringe earring to hatband, bracelets, and necklaces. Each handmade, handwoven piece is a one of a kind creation of turquoise and silver, made with delicas to create the perfection you see. Who wears fringe? Who wears Turquoise? You do!! Whether you are going out for an evening on the town, running errands, or meeting up with a friend for lunch, beaded fringe and Turquoise are the perfect additions to complete your look and make you feel like you are ready to take the day on.
